

CELL BIOLOGY OF THE TESTIS AND EPIDIDYMIS^a

Editors and Conference Organizers
M.-C. ORGBIN-CRIST AND B. J. DANZO

CONTENTS

Introduction. <i>By</i> M.-C. ORGBIN-CRIST and B. J. DANZO	xv
Endocytic Activities of Sertoli Cells in the Rat. <i>By</i> Y. CLERMONT, C. MORALES, and L. HERMO	1
Gonadal Development and Gametogenesis in the Hypogonadal Mouse Are Restored by Gene Transfer. <i>By</i> A. J. MASON, S. L. PITTS, K. NIKOLICS, E. SZONYI, J. N. WILCOX, P. H. SEEBURG, and T. A. STEWART	16
 Part I. Regulation of Spermatogenic Differentiation	
Sex-Reversed Mice and Sex Determination. <i>By</i> B. M. CATTANACH	27
Acquisition of Hormone-Mediated Mechanisms Regulating Testicular Steroidogenesis during Development. <i>By</i> C.-H. TSAI- MORRIS, G. F. KNOX, and M. L. DUFAU	40
Fucosylation Events during Mammalian Spermatogenesis. <i>By</i> C. F. MILLETTE, R. A. CARDULLO, D. R. ARMANT, and G. L. GERTON	58
The Occurrence and Distribution of Lamin Proteins during Mammalian Spermatogenesis and Early Embryonic Development. <i>By</i> S. B. MOSS, M. J. DONOVAN, and A. R. BELLVÉ	74
 Part II. Gene Expression and Male Reproduction	
Gene Expression during Spermatogenesis. <i>By</i> N. B. HECHT	90
Genes for Chromosomal Proteins Expressed before and after Meiosis. <i>By</i> W. S. KISTLER, M. A. HEIDARAN, K. D. COLE, J. C. KANDALA, and R. M. SHOWMAN	102

^aThis volume is the result of the Ninth Testis Workshop entitled Cell Biology of the Testis and Epididymis, held at Vanderbilt University, Nashville, Tennessee, on October 14-17, 1986.

Differential Expression of the <i>c-abl</i> Proto-Oncogene and the Homeo Box-Containing Gene Hox 1.4 during Mouse Spermatogenesis. By R. N. DUGGAL, Z. F. ZAKERI, C. PONZETTO, and D. J. WOLGEMUTH.....	112
---	-----

Expression of Sperm-Specific Genes during Nematode Spermatogenesis. By S. WARD.....	128
---	-----

Part III. Regulation of Spermatogenic Function

Role of Basement Membranes in Cell Differentiation. By H. K. KLEINMAN, J. GRAF, Y. IWAMOTO, G. T. KITTEN, R. C. OGLE, M. SASAKI, Y. YAMADA, G. R. MARTIN, and L. LUCKENBILL-EDDS.....	134
---	-----

An Automated Perifusion System for the Study of Rat Spermatogenesis <i>in Vitro</i> . By A. L. KIERSZENBAUM and L. L. TRES.....	146
---	-----

Cell-Cell Interactions in the Testis. By M. K. SKINNER.....	158
---	-----

Cellular Vitamin A-Binding Proteins in the Testis. By D. E. ONG, S. TAKASE, and F. CHYTIL.....	172
--	-----

Part IV. Regulation of Epididymal Function

Androgen-Regulated Epididymal Secretory Proteins Associated with Post-testicular Sperm Development. By D. E. BROOKS.....	179
--	-----

The Role of the Epididymal Epithelium in the Development of Mammalian Sperm-Fertilizing Capacity <i>in Vivo</i> and <i>in Vitro</i> . By H. D. M. MOORE, C. A. SMITH, and T. D. HARTMAN.....	195
--	-----

Preliminary Observations on a Second $M_r \approx 24,000$ Membrane Molecule from Rat Spermatozoa. By A. MOORE, K. ENSRUD, J. BAKER, J. WENSTROM, and D. W. HAMILTON.....	204
--	-----

Further Characterization of a Model System for the Study of Human Epididymal Physiology and Its Relation to Sperm Maturation. By J. G. TEZÓN, M. H. VAZQUEZ, M. A. DE LARMINAT, M. S. CAMEO, L. PIÑEIRO, A. PIAZZA, C. SCORTICATI, and J. A. BLAQUIER.....	215
--	-----

Part V. Properties of the Sperm Membrane

Cytoskeletal Assemblies of Mammalian Spermatozoa. By G. E. OLSON, V. P. WINFREY, and S. P. FLAHERTY.....	222
--	-----

Diffusion and the Control of Membrane Regionalization. By D. E. WOLF.....	247
---	-----

Rearrangement of Sperm Surface Antigens prior to Fertilization. By D. G. MYLES, D. E. KOPPEL, A. E. COWAN, B. M. PHELPS, and P. PRIMAKOFF.....	262
--	-----

Further Characterization of a Speract Receptor on Sea Urchin Spermatozoa. <i>By</i> L. J. DANGOTT and D. L. GARBERS	274
---	-----

Part VI. Short Papers

Gonadal Sex Reversal of Fetal Mouse Ovaries following Transplantation. <i>By</i> T. TAKETO-HOSOTANI	286
Effect of Anti-Müllerian Hormone (AMH) upon Structure and Germ-Cell Population of Fetal Rat Ovaries: An Experimental Freemartin Effect. <i>By</i> B. VIGIER, F. WATRIN, S. MAGRE, D. TRAN, and N. JOSSO	288
Retinol Induces Stage Synchronization in Seminiferous Tubules of Vitamin A Deficient Rats. <i>By</i> C. R. MORALES and M. D. GRISWOLD	292
Expression of Vimentin in Rat Sertoli and Spermatogenic Cells. <i>By</i> P. MALI, I. VIRTANEN, and M. PARVINEN	294
Regulation of the Proliferation of the Undifferentiated Spermatogonia in the Chinese Hamster. <i>By</i> D. G. DE ROOIJ and J. M. JANSSEN	296
Spermatogonial Multiplication and Stem-Cell Renewal in the Rhesus Monkey (<i>Macaca mulatta</i>) after X-Irradiation. <i>By</i> M. M. A. VAN ALPHEN, H. J. G. VAN DE KANT, and D. G. DE ROOIJ	299
Evidence for <i>in Vivo</i> Transferrin Synthesis and the Relationship between Transferrin mRNA Levels and Germ Cells in the Testis. <i>By</i> M. D. GRISWOLD, S. HUGLY, C. MORALES, and S. SYLVESTER	302
Nuclear and Manchette Development during Spermiogenesis of Normal and <i>azh</i> Mutant Mice. <i>By</i> M. L. MEISTRICH, A. COLE, L. M. CHERRY, and P. K. TROSTLE-WEIGE	304
Forms of Acrosin during Guinea Pig Spermatogenesis. <i>By</i> C. E. ARBOLEDA and G. L. GERTON	308
Regulation and Localization of Plasminogen Activators in the Rat Seminiferous Epithelium. <i>By</i> K. VIHKO, T.-L. PENTTILÄ, J. TOPPARI, M. PARVINEN, and D. BELIN	310
Calmodulin, Tubulin, and Actin RNAs in Isolated Rat Testis Cells. <i>By</i> G. R. SLAUGHTER, A. R. MEANS, and M. L. MEISTRICH	312
Differential Expression of Two Distinct Forms of Proenkephalin mRNA during Development of the Mouse Testis. <i>By</i> D. L. KILPATRICK and K. BORLAND	315
Changes in the Affected Testis after Unilateral Torsion of the Spermatic Cord in Guinea Pig. <i>By</i> J. CHAKRABORTY, A. P. SINHA HIKIM, and J. S. JHUNJHUNWALA	318

Maintenance of Spermatogenesis with Normal Germ-Cell Relationships in Testosterone-Treated Rhesus Monkeys. <i>By</i> S. R. PLYMATE, G. S. WARD, K. E. FRIEDL, and L. A. MATEJ	322
Effects of Neonatal Gonadotropin Treatment on Testicular Development and Endogenous Gonadotropins in the Rat. <i>By</i> A. M. ULTEE-VAN GESSEL and F. H. DE JONG	325
Ovine and Human Luteinizing Hormone Enzymatically Deglycosylated with Endoglycosidase F Are Biologically Active. <i>By</i> H. E. GROTTJAN JR. and L. A. COLE	329
Modulation of Plasma LH, FSH, and Prolactin Patterns by Castration or Castration and Partial Testosterone Replacement in Adult Male Rats. <i>By</i> P. M. GROSSER and B. ROBAIRE	332
Effect of Inhibiting Endogenous Estradiol Production on Androgen Secretion by Dog Testes Perfused <i>in Vitro</i> . <i>By</i> P. E. JUNIEWICZ, J. R. WALTERS, J. E. OESTERLING, R. E. STEELE, D. S. COFFEY, and L. L. EWING	337
Postnatal Development of Leydig Cells in the Testis of the Domestic Fowl. <i>By</i> E. PEDERNEIRA, H. MENDOZA, M. C. AGUILAR, and M. C. ROMANO	340
Proliferation and Differentiation of Leydig Cells in the Rat Testis. <i>By</i> K. J. TEERDS, D. G. DE ROOIJ, F. F. G. ROMMERTS, and C. J. G. WENSING	344
Effect of Unilateral Castration and Unilateral Cryptorchidism on Leydig Cell Function in Rams. <i>By</i> M. A. MIRANDO, S. A. CRACCHIOLO, R. L. GRAVES-HOAGLAND, C. R. PERKINS, J. W. RIESEN, and T. A. HOAGLAND	347
The Influence of Unilateral Castration on Leydig Cell Testosterone Production. <i>By</i> S. A. CRACCHIOLO and T. A. HOAGLAND	350
Actions of Human Chorionic Gonadotropin on Leydig Cell Function in Hamsters with Photoperiod-Induced Testicular Atrophy. <i>By</i> A. G. AMADOR and A. BARTKE	353
On the Existence of Two Leydig Cell Populations in Aged Human Testis. <i>By</i> V. PAPADOPOULOS, M. A. DROSDOWSKY, and S. CARREAU	356
Two Successive Different Populations of Leydig Cells during Equine Testis Maturation. <i>By</i> G. ALMAHBOBI, V. PAPADOPOULOS, S. CARREAU, and P. SILBERZAHN	359
Use of Monoclonal Antibodies to Characterize Leydig Cell Populations <i>in Vitro</i> . <i>By</i> M. P. HEDGER and E. M. EDDY	362
Developmental Patterns of 17β -Hydroxysteroid Dehydrogenase (17β -HSD) and 5α -Reductase Activities in Two Populations of Rat Leydig Cells. <i>By</i> E. P. MURONO and V. FISHER-SIMPSON	364
Comparison of Direct Stimulatory Effects of Somatomedin C and Insulin on Leydig Cell Steroidogenesis in Primary Culture and	

Identification of their Receptors. <i>By</i> T. LIN, J. HASKELL, N. VINSON, and L. TERRACIO	367
Hormonal Regulation of Polyamine Biosynthetic Enzymes in the Leydig Cell-Derived TM ₃ Cell Line. <i>By</i> J. OSTERMAN and L. TERRACIO	370
Hormonal Regulation of Sterol Carrier Protein ₂ (Nonspecific Lipid Transfer Protein) in Rat Leydig Cells. <i>By</i> M. VAN NOORT, F. F. G. ROMMERTS, A. VAN AMERONGEN, and K. W. A. WIRTZ	373
Characterization of Three Testosterone-Producing Hybrid Clones. <i>By</i> A. LEFÈVRE, D. DAMPFHOFFER, and C. FINAZ	377
Intratesticular Opiates as Regulators of Leydig Cell Function. <i>By</i> P. L. MORRIS and C. W. BARDIN	380
Testosterone, Estradiol, and cAMP Production by Neonatal Procine Leydig Cells in Serum-Free Culture. <i>By</i> C. J. NOLAN, F. C. GARDNER, D. A. KNABE, R. D. RANDEL, and T. H. WELSH JR.	383
Regulation of <i>de Novo</i> Synthesis of Cytochrome P-450 _{17α} in Mouse Leydig Cell Cultures. <i>By</i> D. B. HALES and A. H. PAYNE	387
Identification of Prolactin-Responsive Proteins in Leydig Cell- Enriched Culture Media. <i>By</i> P. L. MORRIS, C. Y. CHENG, and C. W. BARDIN	390
Mechanism of the Acute cAMP-Induced Decrease in P-450 _{17α} in Cultured Mouse Leydig Cells. <i>By</i> L. M. PERKINS and A. H. PAYNE	393
Atrial Natriuretic Peptides Stimulate Testosterone Production by Isolated Mouse Leydig Cells: The Role of Cyclic GMP. <i>By</i> A. K. MUKHOPADHYAY	396
Regulation of Steroidogenic Responsiveness and Cyclic Nucleotide Levels by Atrial Natriuretic Factor in Isolated Mouse Leydig Cells. <i>By</i> K. N. PANDEY, S. N. PAVLOU, W. J. KOVACS, and T. INAGAMI	398
<i>In Vitro</i> Effects of Ethylene Dimethane Sulfonate (EDS) on Isolated Leydig Cells. <i>By</i> F. F. G. ROMMERTS and J. W. HOOGERBRUGGE	401
The Blood-Testis Barrier in Culture. <i>By</i> M. DYM, D. DJAKIEW, M. A. HADLEY, and S. W. BYERS	405
The Mechanism of Sertoli-Germ Cell Interaction. <i>By</i> M. J. WELSH, M. IRELAND, J. METTS, K. TREINEN, and G. PITTENGER	409
Effect of an Extracellular Matrix on the Hormonal Regulation of Sertoli Cell Function. <i>By</i> C. T. ANTHONY, B. K. GLENN, and M. K. SKINNER	413
Proteoglycan Production by Sertoli and Myoid Cells in Mono-, Co-, and Parabolic-Culture. <i>By</i> E. W. THOMPSON, J. S. H. ELKINGTON, and A. W. BLACKSHAW	415

Sertoli Cells Maintain Spermatid Viability <i>in Vitro</i> . By D. F. CAMERON, H. U. WYSS, L. J. ROMRELL, and F. T. MURRAY ..	419
Evidence for Sertoli Cell-Germ Cell Information Exchange during Mammalian Spermatogenesis. By M. KUMARI and S. DURAISWAMI.....	424
Further Evidence of Germ-Cell Influence upon Sertoli-Cell Function <i>in Vitro</i> . By B. LE MAGUERESSE and B. JÉGOU.....	428
Transport of Iron into Rat Sertoli Cells and Spermatids. By A. M. W. TOEBOSCH, M. J. KROOS, and J. A. GROOTEGOED.....	431
Transferrin-S-S-Ricin A Conjugate Inhibits Protein Synthesis in Cultured Rat Sertoli Cells. By C. C. PARKER and S. W. BYERS.....	434
Sequence and Post-translational Modification of Sulfated Glycoprotein-2 Secreted from Rat Sertoli Cells. By M. W. COLLARD, S. R. SYLVESTER, K. SHIELDS, P. D. BISHOP, and M. D. GRISWOLD.....	437
Characterization and Regulation of Androgen-Binding Protein Messenger RNA in Rat Testis. By S. H. HALL, F. S. FRENCH, M. CONTI, and D. R. JOSEPH	439
Androgen-Binding Protein (ABP) in the Blood of Immature Rats Differs in Apparent Molecular Weight from ABP in the Epididymis. By B. J. DANZO, B. C. ELLER, and B. W. BELL ...	442
Androgen-Binding Protein in Rat Serum Is Glycosylated Differently than That in Epididymis. By B. J. DANZO and B. W. BELL	445
Alterations of Androgen-Binding Protein (ABP) in Sertoli/Spermatid Cocultures with Varying Glucose Concentrations. By D. F. CAMERON, H. U. WYSS, and F. T. MURRAY	448
The Effect of Photoperiod on Androgen-Binding Protein and Sperm Fertilizing Ability in the Hamster. By M. K. HOLLAND, B. J. ROGERS, M.-C. ORGEBIN-CRIST, and B. J. DANZO.....	452
Age-Dependent Differences in Testicular and Epididymal Androgen-Binding Protein in the Cynomolgus Monkey, <i>Macaca fascicularis</i> . By H. S. KEEPING, S. J. WINTERS, and P. TROEN.....	455
Transformation of the 10S Androgen Receptor in the Hamster Ductus Deferens DDT ₁ Cell Line. By D. S. COLVARD and E. M. WILSON.....	458
Specificity in the Testicular Regression-Induced Effect on cAMP Accumulation in Cultured Hamster Sertoli Cells. By J. J. HEINDEL	461
Effects of Pulsatile and Continuous FSH Stimulation on Transferrin Secretion in Perfused Sertoli Cell Cultures. By A. JAKUBOWIAK, A. JANECKI, and A. STEINBERGER	463
Inhibitory Receptors Coupled to a Guanine Nucleotide-Binding	

Component of the Adenylate Cyclase in Cultured Sertoli Cells. By L. MONACO and M. CONTI	467
FSH Regulates Testicular Steroidogenesis through Sertoli Cell Factors: Effects and Preliminary Characterization. By M. BENAHEMED, A. M. MORERA, M. A. CHAUVIN, E. DE PERETTI, and A. REVOL	470
Hormonal Regulation and Age-Dependent Changes in mRNA Levels for Regulatory Subunits of cAMP-Dependent Protein Kinases in Rat Testis. By O. ØYEN, W. ESKILD, A. FRØYSA, M. SANDBERG, F. O. LEVY, G. KNUTSEN, V. HANSSON, and T. JAHNSEN	473
Retinoids Decrease Viability and ATP Levels of Round Spermatids <i>in Vitro</i> . By D. A. O'BRIEN, A. FRØYSA, D. L. ROCKETT, V. HANSSON, and E. M. EDDY	477
Sertoli Cells Produce Vitamin-Binding Proteins. By P. M. FETTEROLF and M. K. SKINNER	480
1,25-Dihydroxyvitamin D ₃ and the Testis. By M. R. WALTERS, B. C. OSMUNDSEN, and R. M. CARTER	482
Rat Testicular Factors Inhibiting the Binding of [³ H]Steroid- Receptor Complexes to Chromatin. By Y.-H. TSAI	485
Characterization and Cellular Localization of Glucocorticoid Receptors in Rat Seminiferous Tubules: Detection of Glucocorticoid Receptor mRNA. By F. O. LEVY, L. EIKVAR, B. PIOTROWSKA, O. ØYEN, T. JAHNSEN, and V. HANSSON	487
Evidence for Androgen Receptors in Primate Sertoli Cell Cultures. By S. J. WINTERS, H. S. KEEPING, and P. TROEN	490
Evidence for Age-Dependent Changes in Sertoli Cell Androgen Receptor Concentration. By S. W. BUZEK, L. A. CASTON, and B. M. SANBORN	492
A TGF β -Like Peptide Is a Possible Intratesticular Modulator of Steroidogenesis. By A. M. MORERA, M. BENAHEMED, C. COCHET, M. A. CHAUVIN, E. CHAMBAZ, and A. REVOL ...	494
Unique Characteristics of Rat Sertoli Cell Secreted Growth Factor. By D. J. LAMB, G. SPOTTS, S. D. HOLMES, and R. G. SMITH	497
Insulin and Insulin-Like Growth Factor I (IGF-I) Receptors on Rat Sertoli Cells. By R. B. OONK and J. A. GROOTEGOED	500
Δ^9 Tetrahydrocannabinol Inhibition of cAMP Accumulation in Cultured Sertoli Cells from Immature Rats. By T. J. HEINDEL, J. J. HEINDEL, and W. B. KEITH	503
Inheritance of the Sex-Determining Factor in the Absence of a Complete Y Chromosome in 46,XX Human Males. By J. R. D. STALVEY and R. P. ERICKSON	505
Physiological Attributes of Episodic Testosterone Secretion. By J. D. VELDHUIS, L. A. KOLP, A. D. ROGOL, and M. L. JOHNSON	507

Androgen Receptors in Human Thymocytes. <i>By</i> W. J. KOVACS, and N. J. OLSEN	509
Bioavailable Testosterone Is Decreased in Aged Men. <i>By</i> H. R. NANKIN and J. H. CALKINS	511
Bioactive Luteinizing Hormone and Idiopathic Oligospermia. <i>By</i> M. I. ABUZEID, R. H. WIEBE, R. R. YEOMAN, and S. AKSEL	513
Development of Ovine Follicle-Stimulating Hormone (FSH) and Its Antiidiotypic Antibodies as Vaccines for Male Contraception. <i>By</i> S. G. KOTAGI, N. NATH, S. G. RAJ, K. B. SINGH, and H. G. M. RAJ	516
Testicular Function of Mice with Kidney Disease. <i>By</i> C. CHUBB	520
Murine Testis Autoantigens Are Not Immunologically Sequestered. <i>By</i> T. D. YULE, K. SHEPHERD, L. D. RUSSELL, and K. S. K. TUNG	523
Adoptive Transfer of Murine Autoimmune Orchitis (EAO) to Untreated Recipients. <i>By</i> C. A. MAHI-BROWN, G. MONTOYA, T. D. YULE, P. MATZNER, and K. S. K. TUNG	526
Distribution of Histopathology and Ia Positive Cells in Actively Induced and Passively Transferred Experimental Autoimmune Orchitis. <i>By</i> K. S. K. TUNG, T. D. YULE, C. A. MAHI- BROWN, and M. B. LISTROM	529
Antiandrogenic Activity of Gossypol Metabolites in Young Male Rats. <i>By</i> Y. C. LIN and Y. RIKIHISA	532
Effect of (–) and (+) Enantiomers of Gossypol on Isolated Round Spermatids from Hamsters. <i>By</i> P. J. DEN BOER and J. A. GROOTEGOEDE	535
Ultrastructural Evidence for Transport of Protein across the Epithelium of the Rat Caput Epididymidis. <i>By</i> T. G. COOPER, C. H. YEUNG, and M. BERGMANN	538
The Antitumor Agent Cyclophosphamide Affects Carnitine Acetyltransferase and Acid Phosphatase Activity in the Epididymis of Male Rats. <i>By</i> J. M. TRASLER and B. ROBAIRE	541
Localization of Antagglutinin in the Boar Epididymis. <i>By</i> F. DACHEUX and J. L. DACHEUX	545
Studies on the Function of L- α -Glycerolphosphorylcholine in Rat Epididymal Sperm and Principal Cells. <i>By</i> C. Y. WANG and G. J. KILLIAN	549
Influence of Steroid Hormone-Binding Proteins on Testosterone Metabolism by Isolated Epididymal Principal Cells. <i>By</i> L. BUCHANAN and B. ROBAIRE	551
Isolation and Characterization of Complementary DNA for Rat Acidic Epididymal Glycoprotein (AEG): An Androgen- Regulated Sperm-Binding Protein. <i>By</i> N. J. CHAREST, D. R. JOSEPH, E. M. WILSON, and F. S. FRENCH	554

Mouse Epididymal Fluid Glycoproteins. <i>By</i> T. L. RANKIN, M. K. HOLLAND, and M.-C. ORGEBIN-CRIST.....	557
A Novel Technique for Studying the <i>in Vivo</i> Secretion of Epididymal Proteins. <i>By</i> B. T. HINTON, G. E. OLSON, and K. GOOD.....	559
Motility and Surface Transformations of Human Spermatozoa during Epididymal Transit. <i>By</i> J. L. DACHEUX, C. CHEVRIER, and Y. LANSON.....	560
A Factor in Epididymal Fluid Inhibits the Loss of a Maturation Antigen from the Mouse Sperm Surface. <i>By</i> E. M. EDDY, K. TOSHIMORI, and C. M. DAVIS.....	564
Cytochalasin-D Inhibition of Guinea Pig Sperm Actin Reduces Fertilization. <i>By</i> B. J. ROGERS, C. BASTIAS, L. D. RUSSELL, and R. N. PETERSON.....	566
Purification and Characterization of Guinea Pig Testicular and Epididymal Sperm Proacrosins. <i>By</i> D. M. HARDY, G. C. WILD, and K. S. K. TUNG.....	569
Thioesterification of Polyunsaturated Fatty Acids in Human Spermatozoa. <i>By</i> R. E. JONES and S. R. PLYMATE.....	571
Effects of Sperm-Reactive Antibodies and Complement on the Ultrastructure of Human Spermatozoa. <i>By</i> R. A. BRONSON, G. W. COOPER, and D. M. PHILLIPS.....	574
Monoclonal Antibodies to Monkey and Human Spermatozoa Useful for Contraceptive Development. <i>By</i> Y.-F.-XUE, S. G. KOTAGI, K. K. MURTHY, S. G. RAJ, and H. G. M. RAJ.....	577
Enzymatic Deacetylation and Acetylation of Ether Phospholipids Related to Platelet-Activating Factor in Human Semen with Short and Long Liquefaction Times. <i>By</i> V. R. GUJRATI, R. J. NAUKAM, and B. V. R. SASTRY.....	583
Opioid-Like Peptides in Human Semen and Their Effects on Sperm Motility. <i>By</i> B. V. R. SASTRY and V. E. JANSON.....	586
A Ubiquitous Protease Regulates the Motility of Spermatozoa. <i>By</i> C. GAGNON and M.-P. COSSON.....	589
Is a Transglutaminase Involved in Sperm Motility? <i>By</i> E. DE LAMIRANDE, M.-P. COSSON, and C. GAGNON.....	592
Pertussis Toxin ADP-Ribosylation of Apparent GTP-Binding Protein Alpha-Subunits in Spermatozoan Membranes. <i>By</i> S. E. DOMINO, J. K. BENTLEY, and D. L. GARBERS.....	595
Stimulation of Sea Urchin Spermatozoan Guanylate Cyclase in Response to Egg-Associated Peptides. <i>By</i> J. K. BENTLEY and D. L. GARBERS.....	598
Activities of Sperm Creatine Kinase and Dynein ATPase in Oligospermic Men. <i>By</i> G. HUSZAR and L. VIGUE.....	602

Preliminary Characterization of the Interaction between Mouse Sperm-Surface Zona-Binding Sites Sensitive to Trypsin Inhibitors and Sites with Galactosyltransferase Activity. <i>By</i> D. A. BÉNAU and B. T. STOREY	606
Characterization of the Mouse Sperm Islet-Activating Protein-Sensitive Site Involved in the Zona Pellucida-Induced Acrosome Reaction. <i>By</i> Y. ENDO, M. A. LEE, and G. S. KOPF	609
Characterization of Secretory Proteins in the Human Epididymis. <i>By</i> J. G. TEZÓN, C. HERME, A. DAWIDOWSKY, C. SCORTICATTI, and J. A. BLAQUIER	611
Regulation of cAMP Levels during <i>in Vitro</i> Capacitation of Hamster Spermatozoa. <i>By</i> J. G. TEZÓN, D. M. PHILLIPS, and C. W. BARDIN	614
Index of Contributors	619
